# introduction

In our last exhibition at Domio Gallery, *Silent Ground*, we invited viewers to pause and lean into stillness. *Restless* follows on from that — after silence comes activity, after calm, energy stirs.

This show focuses on tension, momentum, and change. The works resist staying still — emotionally, conceptually, or visually — capturing moments of unrest, questions that linger, and the energy just before transformation.

*Restless* also reflects the artists' own drive: the compulsion to create, experiment, and push beyond boundaries. Whether abstract, raw, dreamlike, or precise, each piece embodies dynamism, desire, or disruption — revealing what keeps both art and life in motion.

Explore the works and sense their subtle undercurrents. We invite you to personally connect with the artists through the links provided in the online exhibition. Scan the QR code below to visit.
